

How CANDO and the WBC are working for you...

This 2006-2007 fiscal year CANDO and the WBC will be offering statewide supported Performance Contracting which can help save you money, effort and time while improving your buildings. **If you miss the first seminar you'll miss out on a true Win/Win advantage.**

During the 2005-2006 fiscal year CANDO and the WBC focused on assisting with energy audits for 10 public buildings throughout the state, including hospitals in Douglas, Torrington, Rawlins, Casper, Riverton, Thermopolis and Laramie. We also provided energy audits for 22 school buildings in the districts of BHCDS#4, CCSD#1, NCSD#1, SCSD#1, UCSD#1, and WCSD#1:, as well as assisting Sheridan College Campus.

Specific to Schools:

To determine the viability of LEED Certification, funding was provided to Greybull's new elementary school which has begun construction.

Finally we worked to ensure proper funding for commissioning on school buildings.
