

Victor Olgyay, Principal, RMI Built Environment Team.

Mr. Olgyay has a wide range of experiences in architectural design, planning, laboratory design and integration, environmental and acoustical systems, with specialization in lighting and daylighting design. While spending eight years as an associate professor of architecture at the University of Hawaii, Mr. Olgyay was named Director of Research with various lighting and daylighting research projects for federal and state agencies. Mr. Olgyay's breadth in lighting and daylighting design ranges from small private residences to large university campuses.
